FROM EDITOR

Yes, it's finished! The first "Fine Art of Bondage" magazine with tons of photos of beautiful tied girls.

After about 2 years of work a lot of photos are ready to publish. Much more than I can show in only one Magazine - or in one thick art book.

At the beginning of the project I had no idea about rope, bondage, the secrets of tying. And so it was an amazing time to learn all of this. In the magazine you'll get some information how you can learn it.

With this magazine I'll show you what's already out and you'll get a preview what's in the pipeline for the next few month.

I began at the end of 2014 with buying some rope and organized photoshoots with models I already knew. After 15 years of photography these sessions were a totally new experience for me and the models. Most of them have never been tied up in private or in front of a camera. It was very difficult for them doing their posing or simply changing their position. Especially when they were tied hard are have been blindfolded.

Dear models: Thanks a lot for the fun, torture and strange situations we had...

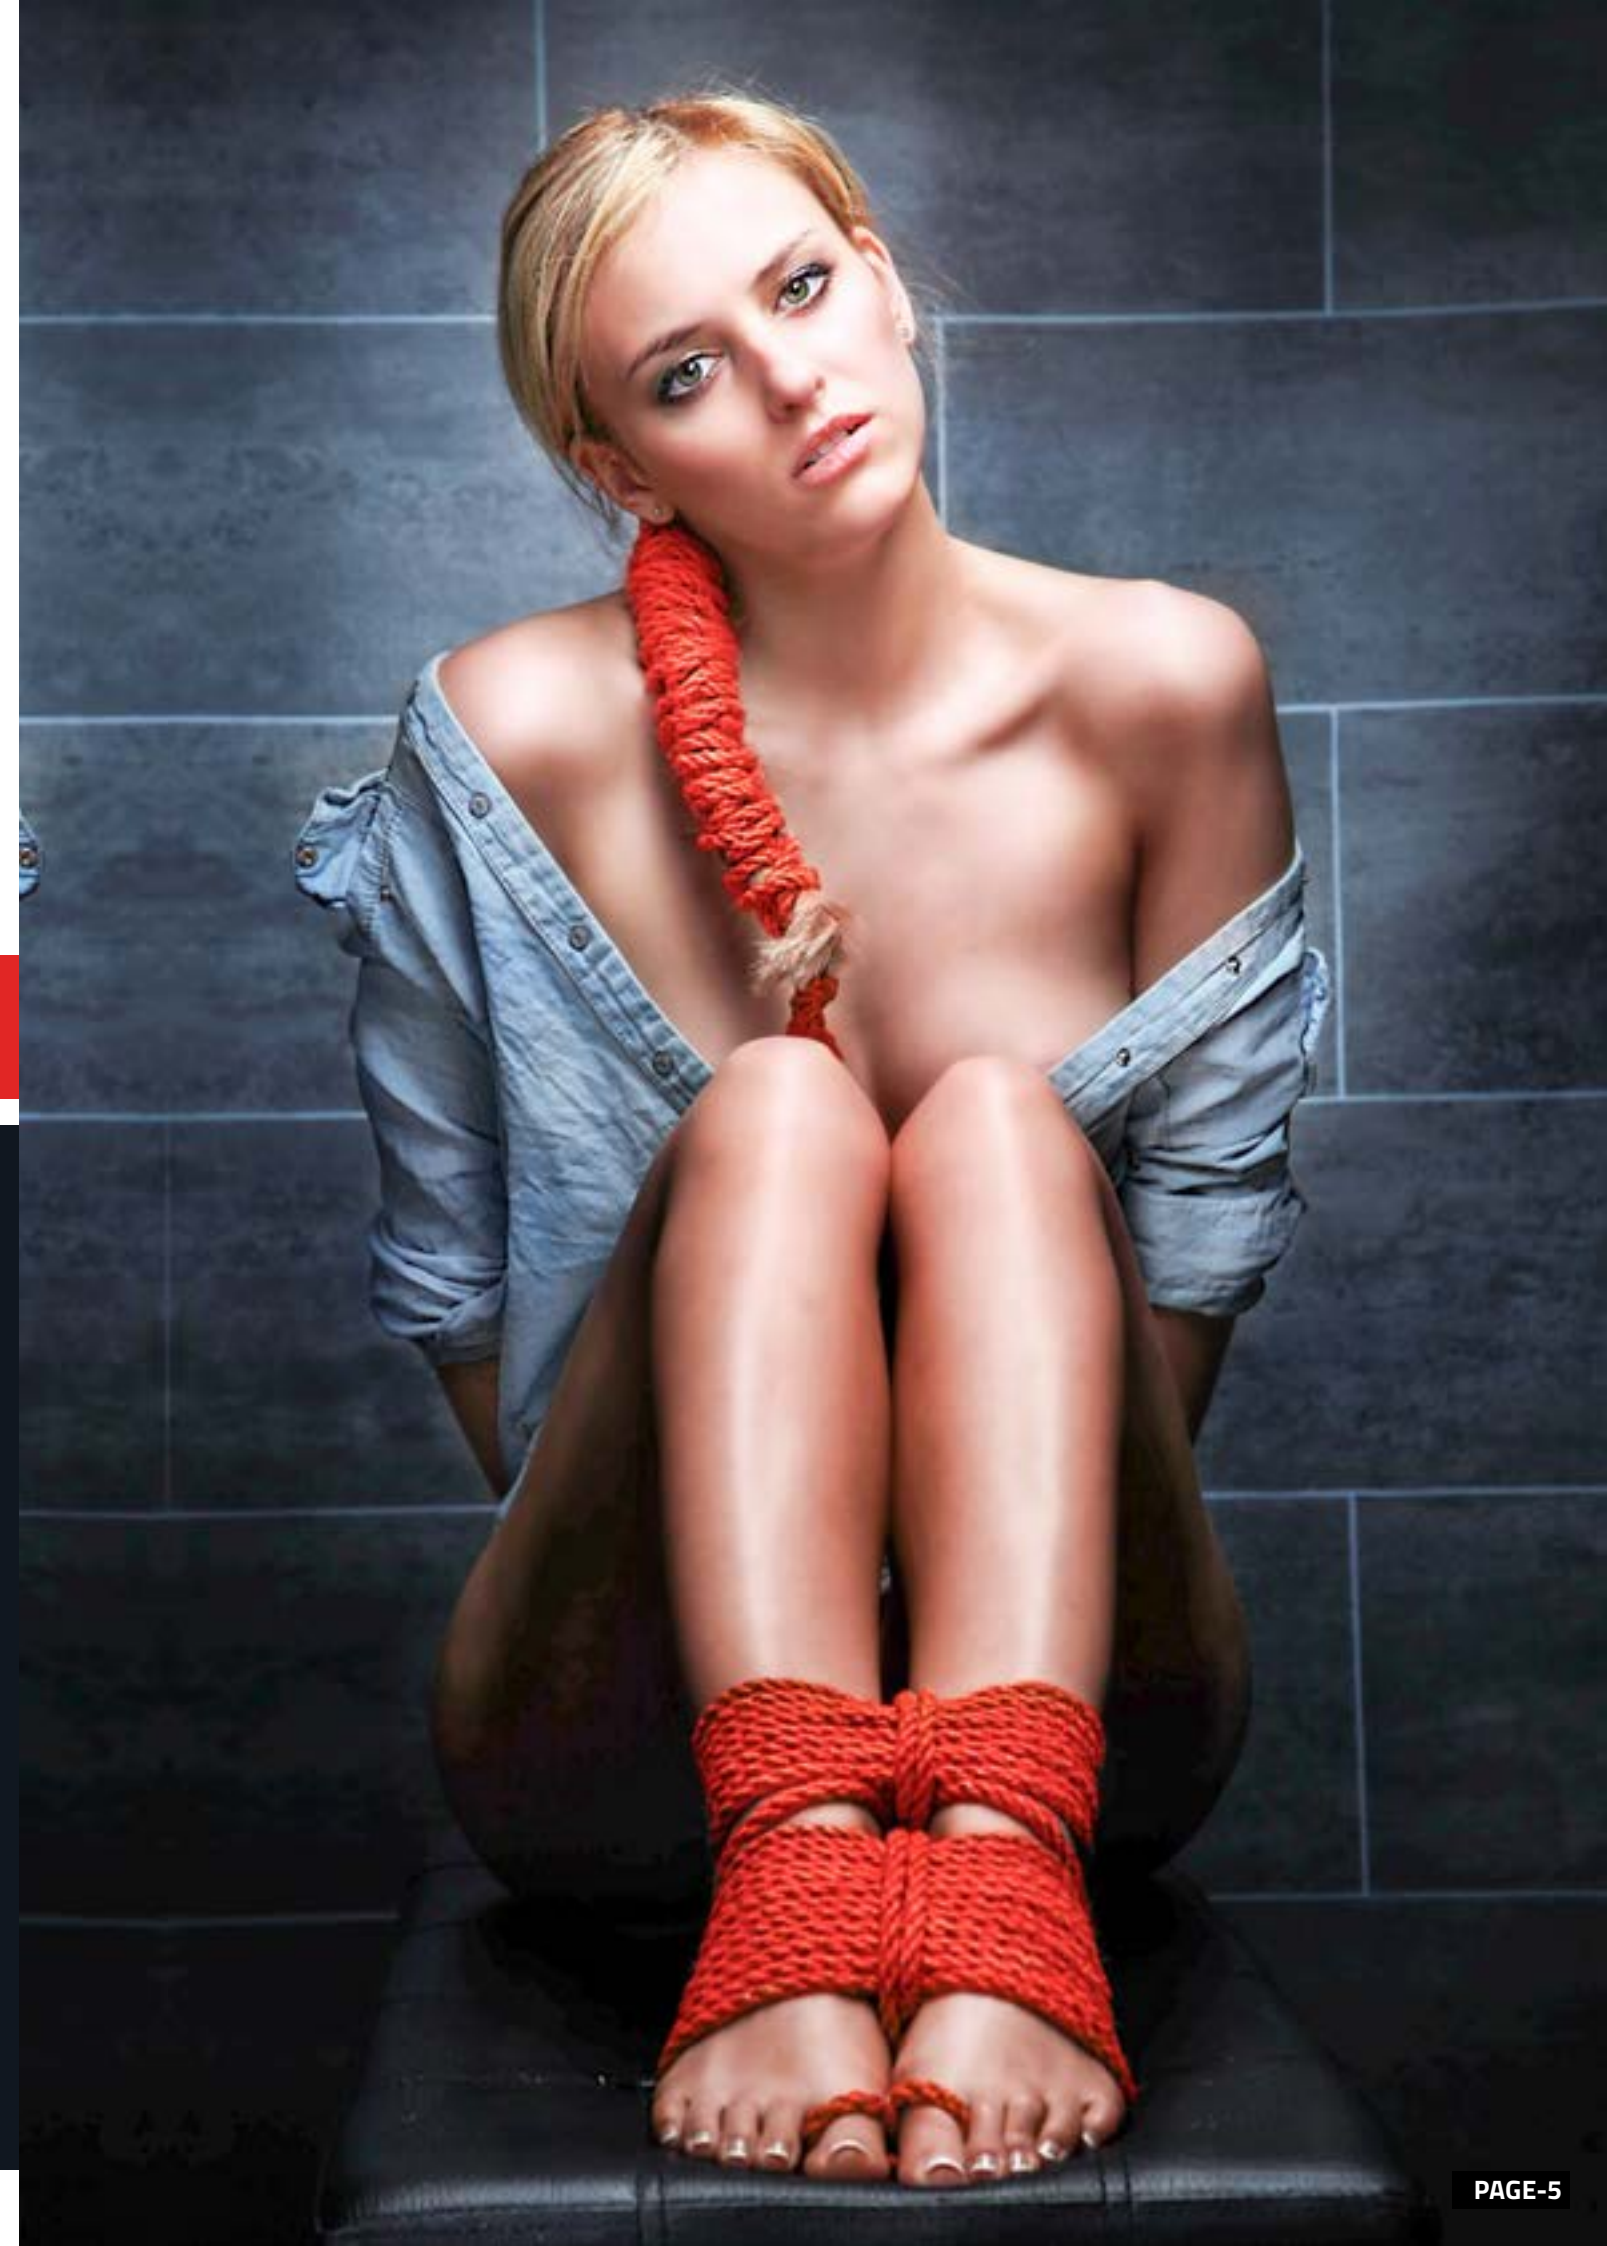

What you see is much more than only some pictures with rope. Bondage is only about being tied. I learned that this is a kind of attitude and lifestyle.

After all those photography sessions I understood more and more the way how the models thought and felt when playing with the ropes. Some just like to feel the rope on their skin, some love to be tied and helpless. But for all it was a great new experience. So some of the models came 2 or 3 times in my studio to try out new knots, poses or we just had some cool ideas and wanted to see the results.

Due to so much different ideas and models I think there will be a lot of stunning slides for you. Even when you are not interested in bondage, bdsm or fetishes, you should see some remarkable shots in this magazine.

About me:
I was born in 1969. Doing professional photography since 2000. "Fine Art of Bondage" is just a part of my work: I also produce and promote (music-)videos with millions of views on youtube. I publish and sell my images mostly online. And I do a lot of photography for customers, the models or my own projects.

ROPEWORK

LET’S TAKE A CLOSER LOOK AT “BEAUTY OF ROPE” - COLLECTION 1. SOME INFORMATION ABOUT THE MODELS AND OF COURSE THE STUNNING IMAGES IN THE BOOK.

Samantha Bentley

Great tied - feel the rope

The first models for the project have been girls I already knew. After publishing the first results I got shooting requests from a lot of models all over the world. Mostly it was not possible to do a photoshoot because of the distance. But with some really cool girls I did some photos:

Samantha Bentley - the Bad Bentley

Really blown away by a twitter message from Samantha Bentley. She saw some images and wanted to have such images too. Samantha was a famous actress in the porn industrie in the UK and USA. She won some AVN awards for her work, has been on the cover of the Penthouse magazine USA (08/2015). She was also an actress in the HBO series “Game of Thrones”.

Samantha booked a flight from london to stuttgart and I picked her up at the airport. We had a lot of time for the photos and so there was time to talk about her life.

Right now she’s turning her life to a DJ career. Producing music, publish them and playing with the turntables on a great open air concert or in a discotheque can be really satisfying.

She’s a really beautiful girl. In front of the camera it’s really great to work with her - she’s very professional und knows what to do to get great images. I really look forward to see her for another photography session.

Eva Kisiomva

Eva is a well known model in italy. She was planning a photo tour in germany and I saw this on the web. So I asked for a shoot and we met us for taking the images. During the session she told me, that my images are already well known in italy and she said that I am famous in italy. Because of this she decided to do the shoot with me. It was her first bondage but she has so much experience with photoshootings. It was really no problem to get some cool photos with her.

Truth Burlington

Again an experienced model. She already had some bondage experience and knew about the pain of beeing hard tied. She loved to work with me. We got along with each other very well and since this time we phone each other from time to time. Truth is not only a photo model, she’s also an actress. E.g. in the german series “Alarm für Cobra 11/Die Autobahnpolizei” in the episode “1000 Tode”.

Lola Burkhardt

A hot brazilian girl, living in germany. She was in several TV shows in germany. She’s a dancer for samba and other latin kinds of dancing. We combined her bondage shoot with some portraits and new samba dancing outfits. I meet Lola two years ago when we did some photos for an outdoor calendar.

Jessica K. (Image: next page)

Some month after her first bondage photography session, Jessica was elected by the playboy germany readers as “Wiesn Playmate 2015” for the Oktoberfest Munich. Really great!

WIDE VARIETY IN BONDAGE & MODELS

Bondage has to do a lot with trust. That's why I talked a lot with the models. I wanted to know what they like to do with the ropes, what kind of images they love. In the end I got a wide variety of images. Some are more romantic, some with a cool story in one image and some in a classic, hard tied style. Mixing the Japanese bondage styles like shibari, kinbaku with the western style bondage gave me more

possibilities in tying the girls or adding some accessoires like e.g. the violin.

Yes, I know: some boys like only blondes. That's why I have a lot of different girls in the book. Even Asian girls or girls with stunning tattoos on their bodies.

Whatever you like - all types of beautiful girls, romantic or more BDSM/hard tied models. Rope combinations with accessoires or colored rope. The Fine Art of Bondage collections extends "typical" bondage photography.

WEDDING DRESSES, SCHOOLGIRLS, NUNS AND MORE. INSPIRATION FOR YOUR PLAY WITH ROPE OR YOUR PHOTOGRAPHY.

Private rope play

I got a lot of response to the early published images. This gave me the opportunity to understand much more what you like. Some people see much more than only "art" in these images, more than having one of the photos as a background wallpaper on the pc screen or smartphone, more than having some pleasure with visitors looking astonished at the wall art or calendars in their apartment: There are people using these images as an inspiration for their own rope or role plays.

Photographers

Perhaps I'm wrong, but I recognized more photographers doing bondage photography in the last two years. Probably it's based on the "Fifty Shades of Grey"-hype, but some of them could be inspired by this project too.

So I hope the "Fine Art of Bondage - Beauty of Rope" book can be a great source of ideas for other photographers too.

Playing with rope can be dangerous - so be careful what you do. When you tie someone, you're responsible for this person. When you're the one being tied, take care with who you do this. Bondage has a lot to do with trust.

ROMANCE, STORIES, COSTUMES

How to tie

I began the project with absolutely no idea how to tie.

So I googled for some information and tips. There are a lot of things you'll find. Take also a look on the health aspect of bondage!

YouTube is also very interesting. There are great videos about how to tie. You find all standard and even specialized knots.

You should also watch out for sailing or boating knots, fusion knots, paracords or braiding knots. There are complete YouTube channels about this.

When tying a person it's very good if you have a written book about the knots. In the first months of my photo sessions or when I did some more complicated knots I used to have these books next to the model. I think these 3 are the best books you can buy in this genre. I bought some others too, but they were not really helpful..

1. „Decorative Fusion Knots: A Step-by-Step Illustrated Guide to New and Unusual Ornamental Knots“ ISBN-10: 1931160783
2. „Two Knotty Boys Showing You The Ropes: A Step-by-Step, Illustrated Guide for Tying Sensual and Decorative Rope Bondage“, ASIN: B009CRMORO
3. „Two Knotty Boys Back on the Ropes“ ISBN-10: 1931160694

.. and of course you need at least one of the "Fine Art of Bondage" books for your inspiration..

5 Beauty of Rope Calendars 2017

BONDAGE WALL CALENDARS 2017

5 "BEAUTY OF ROPE" CALENDARS - ONE COLLECTION.
13 BIG IMAGES AND ANOTHER ON THE BACKSIDE OF THE CALENDAR - WITH AN
ADDITIONAL OVERVIEW OF ALL IMAGES.

As these are the first calendars with my bondage art photography. So I am very curious about your response.

What's next?

Right now I don't know what images I'll put in the next calendars. Conceivable could be just similar images from the first ones, more nudes or probably a black and white version..

Worldwide shipping..

I am not really happy with selling the original , big sized calendar only in europe. But a worldwide shipping is not easy and cheap. And there are all the different duties/taxes in other countries...

Perhaps I'll upload a smaller calendar and work with a company doing the prints and shipping worldwide. You will be informed through the homepage.

ROPE HARNESES

LANDSCAPE CALENDAR WITH TITLE IMAGE, 12 MONTH AND ONE ADDITIONAL
PHOTO ON THE BACKSIDE.

RETOUCHING

YOU LOVE COLORS? THEN YOU LOVE THESE IMAGES: VERY COLORFUL, HIGH CONTRAST AND A LOT OF LIGHT AND SHADOWS.

I PLAYED A LOT WITH LIGHTS AND FLASHES.

Yes, this is really much color in almost all of the images. But perhaps that's why all these images look much more than art and not like "porn". Even very sexy poses or really hard tied models have nothing to do with the typical "selfmade bondage photos" you'll find everywhere on the web.

What about black and white?

No, until now there's only color. But I know there are a lot of people who don't care about color. Black and white rules their world..

So I think I will have to play and find a cool style for the b&w conversion of some images.

Models: Extend your Sedcard!

You see: Fetish, BDSM and Bondage photography can be done in a really high end style. When you want such images in your sedcard, just contact me and we'll see what's possible. Don't forget: I do these photos in my studio in germany/Ulm. That's between stuttgart and munich.

"My" models with such images in their sedcard get much more requests for this kind of photography. And normally they get more money than for a "normal" photoshooting. So don't hesitate and contact me.
